## Safety precautions

---

### ▲ CAUTION

**To prevent injury or fire, Please take the following precautions:**

- Do not operate when driving.
- To prevent electric, etc, Please do not let the metal goods (silver, coin, tools...) fall into the installation.
- If you smell or see smoke, turn off the power immediately and consult our dealer.
- Be careful not to drop or shock the unit strongly.
- Do not touch the liquid crystal to avoid the life hurt. If the clothes is stained with it, Please clean it immediately by soap.
- For your driving safety, please link your brake detecting wire with low power level, and keep it controlled by manual brake switch. when driving a car, the brake wire shall be high power level and now, unit can not play DVD or VCD disc.

### ▲ WARNING

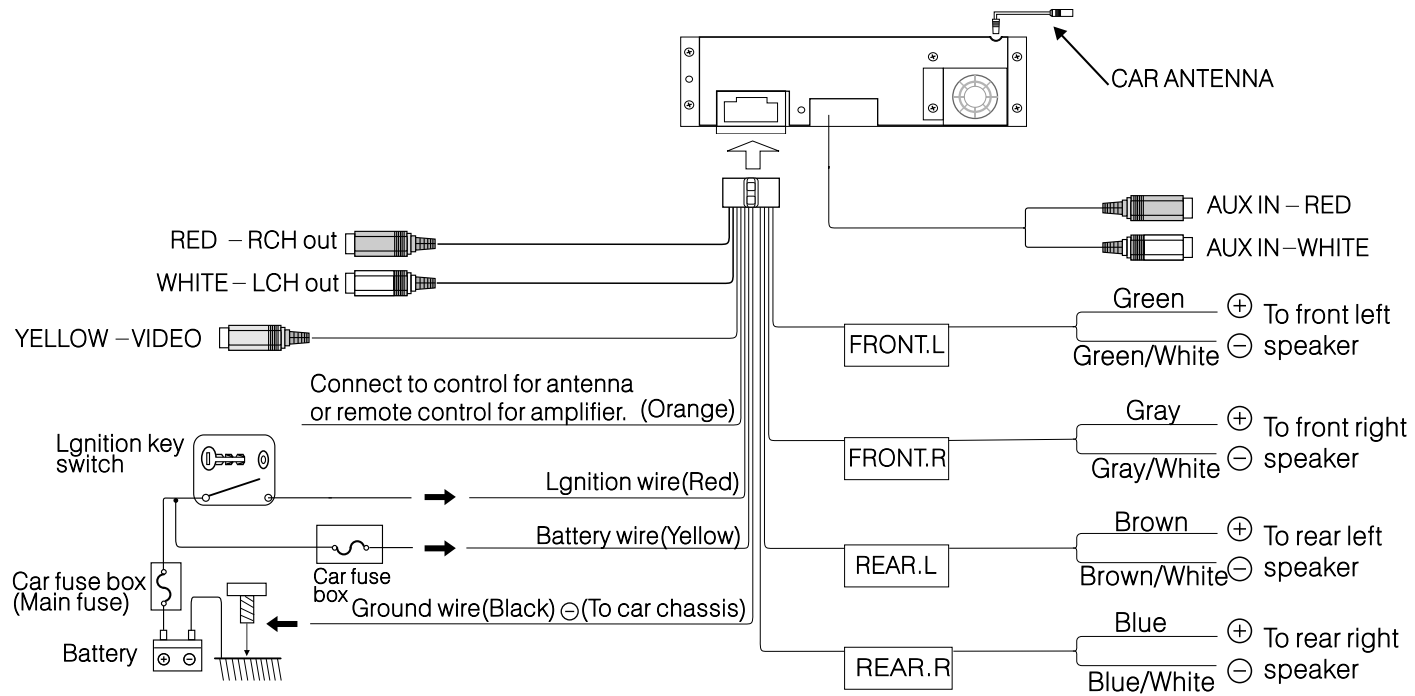

**To prevent damage to the machine, Attaching panel: take the following precautions:**

- Be sure the unit is connected to a 12V DC power with a Negative Ground.
- Do not install the unit in places where it is exposed to direct sunlight, high heat or humidity, water splash or dust.
- To change fuse, please use the same one in specification and capacity.
- When changing fuse, please do it after pulling down power wires to avoid short circuit.
- If the unit seems not work in proper situation, please press the reset button to resume the function.

Attach the front panel by fixing the left Side of it into this unit as 1 showing. Then push the right side of panel towards into connecting plug as 2 showing.

## ***Electric Connection***

## ***Installation***

---

Before installing the receiver permanently, fit it in the approximate place in your car, and connect the equipment according to the speakers and electrical connections. When your system is operated properly, (preferably with the car engine running), follow the instructions for permanent installation of your system.

### **INSTALL THE UNIT**

- 1) Install half sleeve, can be with or without adapter. It will fit better with adapter.
- 2) Bend over some tabs to secure the half sleeve inside of dash.
- 3) Support strap to be strutted under dash, secure this strip to avoid skipping of disc.

### **REMOVE THE UNIT**

- 1) Insert removal wrench into the small gap on the right side of the unit and pull the unit slightly out on the same side, then release the wrench. Repeat the same action for the left side. By now, you can remove the unit and unplug the wires connector.

# Specifications

---

**Specifications subject to change without notice.**

## **CD PLAYER**

Signal/Noise ratio.....70dB  
Frequency response.....20Hz-20KHz(+3dB)  
Channel separation.....>45dB  
Dual D/A converter.....16Bit

## **FM Tuner**

FM 65-74MHz  
Tuning range.....EUROPE:87.5-108.0MHz  
(50KHz step)  
USA:87.5-108MHz  
(100KHz step)  
FM usable sensitivity(S/N=30dB).....<12dB  
Stereo separation.....>45dB

## **AM Tuner**

Tuning range.....EUROPE:522-1620KHz  
(9KHz step)  
USA:520-1720KHz  
(10KHz step)  
AM sensitivity.....28dB

## **GENERAL**

Operating power.....12 Volts DC,negative  
ground  
%10THD output wiring.....Designed for using four  
speakers only front and rear  
channels cannot be combined  
in use with 2speakers.  
Load impedance.....compatible 4 to 8 ohm  
speakers  
Fuses.....10 amp  
Dimensions.....178mm(L)x50mm(W)  
x150mm(H)  
Weight.....2.5Kgs

## Trouble shooting guide

---

What might seem to be a malfunction in your unit may just be the result of slight misoperation or miswiring. Before calling service, first check the following table for possible problems.

### ?The power does not turn ON.

#### ✓ The fuse has blown.

 Confirm whether the lead short circuit, then replace fuse with same capacity.

---

### ?NO Sound.

#### ✓ The cable connect incorrectness.

 Exactitude connect of the cable.

---

### ?Noise on Radio or poor reception

#### ✓ Antenna and Antenna Cable.

 Check antenna and antenna cable, the antenna base must be grounded and connected with good condition, replace antenna or antenna cable if needed.

---

### ?Noise on both Radio and CD

#### ✓ Poor ground, dirty or corroded at the car Battery posts

 Check the black wire for proper grounding clean and tighten ground connection.

### ?No/Poor sound on one or more speakers

#### ✓ Speakers or speaker wiring or volume, Balance and Fader setting

 Check the speaker wiring and test the speakers all in good condition check the setting of volume, Balance and Fader controls.

---

### ?CD sound skips

#### ✓ Installation the unit angle is greater than 45°, or mounting is not fixed and the back strap is not secure.

 Adjust the unit with mounting angle less than 45° and make sure the unit is mounted securely and tighten with the back strap (supplied)

---

### ?Unit completely inoperative, no Light and Sound

#### ✓ Incorrect wire connection, Power RED/YELLOW or Ground wire or Blown fuse

 Check the Red wire to +12 Volts with key Ignition switch, yellow wire to +12 Volts battery and black wire to ground. Check Fuse with red/yellow wire, or check the fuse block on your car.

# **OWNER'S MANUAL**

---

Before installation and operating the unit please read  
this manual thoroughly and retain  
it for future reference
